The 2021 Lippincott Pocket Drug Guide for Nurses provides current, vital information about drugs in a nutshell. This handy pocket guide by Rebecca Tucker provides important information on more than 4,200 drugs, including 38 generic drugs recently approved by the FDA, in easy access from A to I format. Mini drug monographs include generic and trade names, drug classes, pregnancy risk category and controlled substance schedule, black box warnings, readings and dosages, dose adjustments, adverse effects, drug interactions, care considerations, and patient training. A special section on A-to-q drugs contains important information about patient safety. Applications cover topical and ophthalmic drugs, laxatives, combined products, contraceptives, biological agents (vaccines) and more. The 2020 Lippincott Pocket Drug Guide for Nurses provides current, vital information about drugs in a nutshell. Based on the popular Lippincott's Care Drug Guide by Amy Karch, this handy pocket guide from the same author provides important information on more than 4,100 drugs, including 48 generic drugs recently approved by the FDA, in easy access to the A-k-l format.
